Comments from participants

It was a very realistic experience.

It was an enjoyable experience and I learnt a lot.

I understood how to evacuate in the event of a disaster.

Not only did I get to experience it, but they explained in detail.

I wish more people could take part in this tour. I would recommend it to my friends.

The next event will be held on Sunday, June 23, 2024 at Honjo Bosaikan!
